

MAIWAND JAN ALAMZOI

Founder, Maiwand Alamzoi Consultancy · AI, Data Science & Geospatial Solutions

Leuth, Netherlands | +31 682 120 115 | m.alamzoi123@gmail.com | github.com/maiwandalamzoi | zaminai.org | KVK-registered (SBI 71120 & 62200)

PROFILE

AI, data science and geospatial consultant with 7+ years building and deploying machine-learning, remote-sensing and full-stack data systems — from pipeline and model to API, database and live front end. Founder of a KVK-registered technical consultancy delivering applied AI and data solutions to Dutch SMEs and international clients. Built and deployed two production platforms solo. Unusual engineering depth: M.Tech from IIT Kharagpur (machine design, CAD, control & instrumentation; Nuffic-evaluated as equivalent to a Dutch wo master's) plus international programme and policy experience (FAO UN Expert Roster). Comfortable owning the whole pipeline and communicating clearly to non-technical stakeholders.

WHAT I CAN DO

AI & Machine Learning Python (Pandas, NumPy, scikit-learn), Random Forest, XGBoost, time series (ARIMA, Prophet), PyTorch foundations, LLM integration (Claude / Gemini APIs), prompt engineering

Data & Geospatial SQL, PostgreSQL, Power BI, Streamlit, Plotly, Google Earth Engine, QGIS, GeoPandas, Sentinel-2, NDVI/EVI analysis

Engineering & Deployment Flask, REST APIs, Git/GitHub, Docker, Microsoft Azure, Render, IoT & sensor pipelines, CAD (SolidWorks, PRO/E)

Programme & Policy Project Cycle Management, monitoring & evaluation, policy analysis, multi-stakeholder coordination, technical training

WHAT I'VE DONE — EXPERIENCE

- Founder — Maiwand Alamzoi Consultancy, Netherlands**2026 – Present
 - Registered independent consultancy delivering applied AI, machine-learning and data solutions — from pipelines and models to deployed applications and dashboards — for Dutch SMEs and development-sector clients.
- Founder & Lead Engineer — ZaminAI — zaminai.org**2026 – Present
 - Designed and deployed a full-stack AI platform solo — data pipeline, ML models, REST API, database and front end — turning live satellite data into field-level analytics for smallholder farmers.
 - Built a multilingual AI advisory assistant (Claude / Gemini) answering user questions in English, Dari and Pashto; collaboration with Wageningen University & Research.
- Data Scientist — Agrisim & Rapagra, Wageningen — EU-funded innovation projects**Feb 2023 – Feb 2025
 - Built and validated ML models (Random Forest, XGBoost) on multispectral, meteorological and field data for early stress/risk detection, reaching ~87% classification accuracy; deployed a monitoring application used across multiple commercial sites.
- AI & Data Scientist (IoT/Sensors) — Circle Farming — controlled-environment systems**2025
 - Developed IoT-based monitoring and real-time data workflows, integrating live sensor streams into actionable insights and closed-loop system optimisation.
- FAO (UN) National Consultant — Mechanization Policy — Food and Agriculture Organization, Kabul, Afghanistan**Nov 2018 – Dec 2019
 - Delivered policy analysis and food-security assessments on the FAO On-Farm Water Management project; built a national agriculture/irrigation policy database; coordinated FAO, government and development partners. Selected onto the FAO UN Expert Roster.
- Head of National Mechanization Services — Ministry of Agriculture, Irrigation & Livestock, Afghanistan**2016 – 2018
 - Led national mechanization services (team of 15+) across all 34 provinces — machinery deployment, redistribution and operator training, including conservation / zero-tillage practices.

EDUCATION

- M.Tech, Agricultural & Food Engineering (Farm Machinery & Power) — IIT Kharagpur, India (2020–2022).** Machine design, control & instrumentation, CAD/FEM, remote sensing & GIS. Nuffic-evaluated as equivalent to a Dutch wo master's, ref. C125446.
- B.Tech, Agricultural Engineering — Don State Technical University, Russia (2011–2016).** · JICA Knowledge Co-Creation Programme, Japan (2017).

RECOGNITION & LANGUAGES

- Winner — IFA × Wageningen University & Research Hackathon (Nutrient Use Efficiency Tracking, 2026) · FAO UN Expert Roster member · active collaboration with Wageningen University & Research.
- Languages:** English (C1) · Dutch (B2) · Dari (native) · Pashto (native) · Russian (B2) · Hindi/Urdu (proficient)
